SPIRITULISM INSTALLED!

The report of facts, published in the *Republican* at different times during the last six weeks, relative to the marvelous transactions of the ministering spirits haunting David Hoffman's house in Wooster, has ceased to be a local matter. Through the press it is known all over the country, until our city has rather a spiritual than truely orthodox religious reputation.

But proud as Wooster is of a good thing, the credit must be given that Holmes county is the Nazareth from whence the Hoffman spirit came. Wayne county, however, unfortunately, is not Egypt, and, therefore, it may come to grief.

People from distant parts of the country—from New York to Kansas, Canada, &c.—have written to us for information as to the truth or falsity of the so called Wooster spirit manifestations. Many citizens also have verbally asked the same question. To all we have to say that we simply recite the strange occurrences as they take place; at the same time rejecting every solution of the manifestations that are based upon the hypothesis of supernatural agency. But yet, as an exchange remarks upon the subject: "most people turn a willing ear to every revelation of the marvelous. Superstition and credulity can scarcely be regarded as salient features of our nineteenth century civilization, and yet few of us would like to confess how, after all we have given our faith to the supernatural Ghost stories, which have not lost their secret charm for the wisest as well as the simplest. Of course in the light of science and of reason, all these things are nonsense; but after all, it is a nonsense for which we cannot help keeping a soft spot in our hearts.

There is no abatement of the strange proceedings at our haunted house. The spirits still live, and seem to be more irresistible than ever.

At first the spiritulists did not know whether it was spirits or the family; but after profound research and labored investigation, success perched upon their banners. The discovery was made by a sure test—"music in the soul"—and in this melodious manner: A common tin pan, second hand, and a little wooden stick were placed under a table; the table covered with a cloth of sufficient size so as to completely envelope it; around, at a distance from a table, the circle of men and women arranged. The lights were put out, deep darkness supervened, and silence reigned so intense that one couldn't hear anybody pick up a pin. Then the stick commenced hammering the pan with a rub-a-dub dub. Eureka! a lost pleiad found, and Mrs. Hoffman and eldest daughter crowned and annointed as first class mediume! It was glory enough for one night!

This occurred some two weeks ago. Since then there has been better music; such as the spirits touching the light guitar and playing second fiddle to the circle, performed in the same manner as the stick and pan. Madame Thompson, of Cleveland, the great clairvoyant and illuminator of the 'ways that are dark,' 'hidden hands,' etc., came to Wooster on the express last Saturday. A good sized stone flew across the room of the haunted house several times to attract attention, on which was written that on that evening the circle would have the biggest meeting they ever had. The information proved correct. The faithful marched out, the observed of many observers on the street The spirits were obedient—made music, &tc., according to programme. The Madame proclamed that it was spirits, but being so many strong mediums in the Hoffman family, confusion was created, and that if she would take one of them away harmony could be restored. That was all that she could do at present, but more anon.

As novelties, taking place at the house, a young man of the mercantile persuasion, whose veracity is not to be doubted, reports that he saw stones flying around the room with written notes attached to them, tied on with strings: and saw a table dance a shoo fly over the floor, and nobody near it—all this in the broadest kind of daylight.

An elderly gentleman visited the family one afternoon. He was forcible in telling the mediums that they were the bully ghosts themselves. He got his sure reward and just deserts. A hot stone dropped at his feet, and the next instant a handful of gravel and sand was thrown in his face; at the same time a note dropped on the bare footed part of his scalp, upon which was written, as the bad boys said to the prophet Elijah, 'Go up, thou bald head!' but no reference was made to the two she bears.

The other day, a white apron ready made was thrown up from the cellar, and had been made out of one of the medium's confiscated under garments by the spiritual sewing machine that keeps dark in the cellar.

A lady who, with others, paid a curiosity visit there last Sabbath lost a cuff. It mysteriously 'went where the woodbine twineth.'

Old Mr. Hoffman is now in his shirt sleves, the last coat of a half a dozen was cut to pieces Friday morning Saturday morning the family found their garden ruined. Peas that had been two foot high were pulled up and cut off; onions, salad, &c. in the same way—all the spirits work, they say.

One of the strangest occurrences is, that one of the daughters purchased a pair of shoes, and for safety, left them at a neighbors, who hung them upon the wall. Next morning the shoes were missing and no trace of them could be discovered. The next day, Mrs. Hoffman put some meat in a vessel on the stove for dinner. When about ready to be served, the lid was taken off, when it was found that with the meat, boiling away, was one of the shoes cut into fine pieces, and thus the spirit cook spoiled their broth.

And so it goes on rampant.—*Wooster Republican.*

THE EARLY DAYS OF DELSARTE.

The autumn of 1829 found him a shabby, almost ragged applicant for employment at the stage door of the Opera Comique. Repeatedly rebuffs failed to baffle his desperate pertinacity.

The day the director, hearing of the annoyance to which his subordinates were subjected by Del-sarte, determined to abate the nuisance by one of those cruel *coups de main* of which Frenchmen are pre-eminently capable. The next night, during the performance, when Delsarte called, he was, to his surprise and delight, shown into the great man's presence.

'Well, what do you want?'

'Pardon, Monsieur. I came to seek a place in your theatre.'

'There is but one vacancy, and you dont seem capable of filling that. I want only a call boy.'

'Sir, I am prepared to fill the position of a premier sujet among your singers.'

'*Imbecile!*'

'Monsieur, if my clothes are poor, my art is genuine.'

'Well, sir, if you will sing for me, I will hear you shortly.'

He left Delsarte alone, overjoyed at having secured the manager's ear. In a few moments a surly fellow told him he was wanted below, and he soon found himself with the manager upon the stage behind the green curtain.'

'You are to sing here,' said the director. 'There is your piano. In one moment the curtain will be rung up. I am tired of your importunities. I give you one chance to show the stuff you're made of. If you discard this opportunity, the next time you show your face at my door you shall be arrested and imprisoned as a vagrant.'

The indignation excited in Delsarte by this cruel trick instantly gave way before the reflection that success was a matter of life and death with him, and that perhaps his last chance lay within his grasp. He forgot his rags; every nerve became iron; and when the curtain was rung up, a beggar with the bearing of a prince advanced to the foot lights, was received with derisive laughter by some, with glances of surprise and indignation by others, and, with a sad and patient smile on his contenance, gracefully saluted the brilliant audience. The courtliness of his manner disarmed hostility; but when he sat down to the piano, ran his fingures over the keys, and sang a few bars, the exquisite voice found its way to every heart. With every moment his voice became more powerful Each gradation of emotion was rendered with an ease, an art, an expression, which made every heart string vibrate. Then he suddenly stopped, bowed and retired. The house rang with bravos. The dress circle forgot its reticence, and joined in the tumult of applause. He was recalled. This time he sang a grand lyric composition with the full volume of his voice, aided by those imperial gestures of which he had already discovered the secret. The audience were electrified. They declared that Talma was resuscitated. But when he was a second time recalled his tragic mood had melted, there were "tears in his voice" as well as on his cheeks.

After the fall of the curtain, the director grasped his hand, loaned him with compliments, and offered him an engagement for a year at a salary of ten thousand francs. He went home to occupy his wretched attic for the last time, and falling on his knees, poured forth his soul in prayer.—*Atlantic Monthly.*

Mr. James Parton writes a sensible letter to the *Public School Journal* on "over schooling and under training," vigorously condemning the cramming system. Forgetting that the chief business of childhood is to grow, we keep our boys and girls all day and part of the evening at their tasks, and nothing saves them from utter destruction but ceaseless rebellion against our murderous requirements. They will not sit still in an ill ventilated room! They will not learn those long lessons out of school! They will coax excuses and holidays from their mothers! We compel them to disobey and misbehave in order to save their lives. We agree with Mr. Parton. Five hours a day is schooling enough for children. Let them have plenty of time for out door play and exhilarating amusement. It will be time enough to overwork them when they grow up.

Why are cashmere shawls like deaf people? Because you can't make them hear.

KORN.

BY JOSH BILLINGS.

Korn iz a serial, i am glad ov it.

It got its name from Series, a primitiff woman, and in her day, the goddess ov oats, and sich like.

I have seen it out thare 18 foot hi (i dont mean the aktual korn itself, but the tree on which it grows)

Korn has ears, but never has one, which iz az deff az an adder.

Injun meal is made ov korn, and korn dodgers iz made out of Injun meal, and korn dodgers are the tuffest chunk, ov the bread purswashun, known tew man.

Korn dodgers are made ov water, with injun meal mixt into it, and then baked on a hard board, in the presence ov a hot fire.

When yu kant drive a 10 penny nail into them, with a sledge hammer, they are said, by good judges, to be well done, and are ready to be chawed upon.

They will keep 5 years, in a damp place, and not grow tender, and a dog hit with one of them will yell for a week, and then crawl under the barn, and mutter for tew days more.

I hav knawed tew hours miself on one side of a korn dodger without producing enny result.

They git the name dodger from the immegiate necessity ov dodgeing, if one iz hove horizontally at yu in anger.

It iz far better tew be smote bi a 3 year old steer, than a korn dodger, that iz only three hours old.

Korn was first diskovered bi the injuns, but whare they found it I dont kno, and i dont know as i care.

Whiskee (noble whiskee), is made out ov korn, and whiskee is one ov the greatest blessings known tew man.

We never should hav bin able tew fill the states prizons with energetick men, and our poor houses with good eaters, if it had not bin for noble whiskee

We should never hav had enny temperance sons ov society, nor prize fites, nor good murders nor phatt aldermen, nor whiskee rings, nor nothing, if it want for the blessed whiskee,

If it want for korn, how could enny body git korned.

And if it want for gitting korned, what would life be worth?

We should all sink down to the level ov the brutes if it want for getting korned.

The brutes dont git korned, they haint got enny reason nor soul.

We often hear ov 'drunken brutes,' this is a komplment to oxen which dont belong to them.

Korn also haz kurnels, and kurnels are often korned, so are brigadeer generals.

Johnny kake is made of korn, so is hasty puddin.

Hasty puddin and milk is quick tew eat.

All you have got to do iz to gap, and swallo, and that is the last of the puddin.

Korn was familiar tew antiquity. Joseph was sent into Egipt after sum korn, but his brothers took pitty on him and pitted him in a pit.

When his brothers got hum, and were asked where Joe was, they didn't acknowledge the korn, but lied sum.

It has bin proved, that it is wicked to lie about korn, or enny of the other vegetables.

There is this difference between lieing and sawing wood, it iz easier to lie especially in the shade.

Korn has got one thing that nobody else has got, and that is a kob.

This kob runs through the middle ov the korn: and is as phull ov korn as Job was ov biles.

I alwus feel sorry when I think ov Job, and wonder how he managed to sit down in a chair.

Knowing how tew set down square on a bile, without hurting the chair, iz one of the lost arts.

Job waz a card, he had more pashence, and biles, tew the square inch, than is usual.

One hundred and twenty-five akers ov korn tew the bushel iz konsidered a good krop, but i have seen more.

I hav seen korn sold for 10 cents a bushel, and in sum parts ov the Western country it is so much, that there aint no good law against stealing it.

In konklushun, if yu want tew got a sure krop ov korn and a good price for the krop, feed about 4 quarts ov it to a shanghi rooster, then murder the rooster immediately and sell nim for 17 cents a pound krop and all.—*New York Weekly.*

MERELY A MEMBER OF CONGRESS.

By J. W. DeFoster.

Merely a member of congress! The judges could not prevent the blue philantropy of his eyes from turning a little green with envy. The title of "M. C." had been for more than a quarter of a century the mark of his ambition. To set those two letters to his name he had spent, gushed eloquence, intrigued, entertained, flattered bowed, grinned, lied and all in vain. Ever since age had qualified him to run for that goal, the state party had been an over match for the Union party in his district, and it was always a Beaumont, or some other Calhounite, who had won the congressional race. At last, two years previous to this interview, he had despaired of being called to save his country, had publicly announced his final withdrawal from politics, and declined a candidature.

But the disappointment rankled in his soul, and he still cherished wild dreams of success. His desire and hope were increased by his contempt and dislike for the men who had beaten him. In his opinion the Hon. Peyton Beaumont was nothing but a willdescended blockhead and rowdy. It was abominable that a man who had the rhetoric of a termagant and the logic of a school boy should represent year after year a district which contained within its bounds the copious, ornate, argumentive, and learned judge McAlister. A man who hoarsely denounced a spade as a spade had surely no claims compared with a man who blandly reproved it for being an agricultural implement. Moreover, Beaumont made a few speeches in congress, and those few excited bitter opposition. The judge imagined himself as orating amid the echoes of the Hall of Representatives with such persuasiveness and suavity as to draw even the senate around him, and to beguile Sumner himself into moderation. Yet he was not elected, and his inferiors were. It was horrible; like belted knight who was overcome by the peasant, he cried, "Bitter, bitter!" and, in his revolt at such outrage, he could not believe that Heaven would be forever unjust.—*From* "KATE BEAUMONT" *in Atlantic Monthly for June.*

TWO HUNTERS AMONG THE SIERRA NEVADAS.

BY CLARENCE KING.

A couple of hunters with their rifles over their shoulders, seeing the smoke of our camp fire followed it through the woods and joined our circle. They were typical mountaineers,—outcasts from society disconted with the world, comforting themselves in the solitude of nature by the occasional excitement of a bear fight. One was a half breed Cherokee, rather over six feet high; powerfully built, and picturesquely dressed in buckskin breeches and green jacket, a sort of Trovatore hat completed his costume, and gave him an animated appearance. The other was unmistakably a Pike countyian, who had dangled into a pair of butternut jeans. His greasy flannel shirt was pinned together with thorns in lieu of buttons, and his hat, having lost its stiffness by continual wetting, was fastened back in the same way. The Cherokee had a long, manly stride, and the Pike a rickety sort of shuffle. His anatomy was bad, his physical condition worse, and I think he added to that a sort of pride in his own awkwardness. Seeming to have a principle of suspension somewhere about his shoulders which maintained his head at the right elevation above the ground, he kept up a good rate in walking without apparently making an effort. His body swayed with a peculiar corkscrew motion, and his long Mississippi rifle waved to and fro through the air.

We all noticed the utter contrast between them, as these two men approached our fire. The hunter's taciturnity is a well known role, but they had evidently lived so long an isolated life that they were too glad of any company to play it unfailingly; so it was they who opened the conversation. We found that they were now camped only half a mile from us, were hunting for deer skins, and had already accumulated a very large number, they offered us plenty of venison, and were greatly interested in our proposed journey to the mountains. From them we learned that they had themselves penetrated farther than any others, and had only given up the exploration after wandering fruitlessly among the canons for a month. They told us that not even Indians has crossed the Sierras to the east; and that if we did succeed in reaching this summit, we would certainly be the first. We learned from them also that a mile to the northward was a great herd of cattle in charge of a party of Mexicans. Fleeing before the drouth of the plains, all the cattle men of California drive the remains of their starved herds either to the coast or the high Sierras, and graze upon the summer pastures, descending in the autumn and living on the dry foot hill grasses, until, under the influence of winter rains, the plains again clothe themselves with pasturage.—*Atlantic Monthly.*

NEW MOTIVE POWER.

A new motor is attracting considerable attention among scientific men, and if it deserves all that is claimed for it, it will unquestionably supersede steam to a great extent in all places where power is required and especially in railway locomotion. It consists simply in producing a vacum by the flame of crude petroleum. The statement is incredible, but it is confidently asserted that its cost is next to nothing, and use may even be made to produce a revenue, as in burning the petroleum only the lighter parts of it are consumed, the heavy lubricating oil being left at the bottom from where it can be taken and sold for more than the cost of the crude oil. The machines constructed on this principle will, it is said, soon be brought before the public, when the invention or discovery can be fully tested. Great advantages are claimed for it as a motor for street railroads, as it is perfectly noiseless, without smoke or steam, and perfectly under control.

VARNISH GATHERING.

The beautiful black varnish which is so much admired the world over is the production of a tree which grows wild in Japan and China as well. It is cultivated in plantations, and is so much improved by the treatment it receives that a cultivated tree affords three times more of this valuable product than the wild one. The tree has some resemblance to the ash, with leaves shaped like those of the laurel, of a light green color, and feel downy to the touch. It is no great beauty, but it is valuable as the source of a very lucrative manufacture. These trees are capable of supplying the varnish when they have attained the age of seven or eight years. The varnish is gathered in the following manner: About the middle of summer a number of laborers proceed to the plantation of these trees, each furnished with a crooked knife, and a large number of hollow shells, larger than oyster shells. With the knife they make incisions in the bark of the trees about two inches in length, and under each incision they force the edge of the shell, which easily penetrates the soft bark, and remains in the tree. This operation is performed in the evening, as the varnish flows only in the night. The next morning the workmen proceed again to the plantation; each shell is either wholly or partially filled with the varnish; this they scrape out carefully with their knives, depositing it in a vessel which they carry with them, and throw the shells into a basket at the foot of the tree. In the evening the shells are replaced, and the varnish is again collected in the morning. This process is repeated through the summer, or until the varnish ceases to flow. It is computed that fifty trees, which can be attended by a single workman, will yield a pound of varnish every night. When the gathering is over, the varnish is strained through a thin cloth, loosely suspended over an earthen vessel.

HINTS TO WRITERS.

The rule regarding talk, 'When you have anything to say, say it,' applies equally to writing. When you really have something to write about, do not peck and scratch round the subject like a hen; pounce upon it like an eagle. Almost every article presented by unpracticed writers to magazines—no matter how admirable the subject—drifts to the leeward for one or two pages before the writer gets steerage way on his thoughts, and the reader finds out where he wants to sail to. This fault could easily be avoided by proper reversion. Cut out all that does not bear on the subject discussed; every useless adjective; every effective repetition of the same idea. Then consider whether you have said what you wanted to say in the best language at your command. If not, write on till you feel satisfied. Then condense and prune. Do not seek for striking metaphor or sprightly epigram, to decorate your article. If such occur naturally, that may be put in, with caution. Consider whether you really gain anything by them; whether they really add force to your writing, or merely flatter your vanity at the time. Afterward, when all is done in the way of argument, you may here and there carefully add an apt quotation or pungent witticism, to attract attention and make some important sentence snap, like the cracker on a coach whip. Remember, too, all the time, that facility in composition, as in all other accomplishments, can only be obtained by practice and perseverance.

"True grace in writing, comes by art, not chance:
As they move easiest who have learned to dance."

THE WALKER PRINTING PRESS.

At the printing end, it looks like a collection of small cylinders, or rollers. The paper, mounted on a huge reel as it comes from the paper mill, goes in at one end in an endless web, 3,300 yards in length, seems to fly through among the cylinders, and issue forth at the other in two descending torrents of sheets, accurately cut into lengths, and printed on both sides. The rapidity with which it works may be inferred from the fact that the printing cylinders (around which the stereotyped plates are fixed), while making their impressions on the paper, travel at the surprising speed of two hundred revolutions a minute. As the sheet passes inward, it is first damped on one side, by being carried rapidly over a cylinder which revolves in a trough of cold water; it then passes on to the first pair of printing and impression cylinders where it is printed on one side; it is next reversed and sent through the second pair, where it is printed on the other side; then it passes on to the cutting cylinders, which divide the web of now printed paper into the proper lengths. The sheets are rapidly conducted by tapes into a swing frame, which, as it vibrates delivers them alternately on either side, in two apparently continous streams of sheets, which are rapidly thrown forward from the frame by a rocker, and deposited on tables, at which the lads sit to receive them.

The machine is almost entirely self-acting from the pumping up of ink, into the ink box, out of the cistern below stairs, to the registering of the numbers, as they are printed; in the manager's room above. Newspapers of moderate circulation, and jobbing generally, are now worked on machines the design of which was originally that of Kœnig, as improved by Cowper, about the year 1818. Innumerable improvements have been made subsequently.—*Printer's Circular.*

Two Dollars a year, in advance.

Massillon, Wednesday, May 31.

The U. S. senate, after a somewhat protracted discussion of the treaty of Washington, approved it last Thursday by a vote of fifty to twelve. This adoption by a vote of some four-fifths of that body indicates that the action of the joint commission gives satisfaction. The business that has in part been keeping the senate together was in trying to find out who it was that prematurely had the treaty published in the Tribune. Two of the correspondents of that paper have been arrested on suspicion, and by last accounts were held in durance until further developments. Meanwhile certain of the senators have been telling a good many things out of school—but they are not yet arrested.

Considerable alarm was produced last week when it was announced that Mr. Colfax was stricken with paralysis, and was regarded as being in a precarious condition. Since then, however, the welcome intelligence has been recieved that he is much better; and that the nature of his ailment was found not to be of so serious a character as at first apprehended. Among the items of interest concerning his sickness was one which stated that previous to the attack Mr. C. had smoked some half a dozen cigars. If that was the case it is not at all wonderful that he should be taken sick, and seriously so, for there is enough deliterious element in that number of cigars to prostrate any constitution, especially if unused to such practice. If the nauseaus weed was the cause of this sickness we hope Mr. C. will never renew its use again.

Last week will long be memorable in many parts of the world as a sort of era of the carvinal of blood. The reckless rebels of Paris have been terribly slaughtered, while the government party lost thousands of lives—in all estimated at not less than 50,000 The papers tell us, also, that about one-fourth of the city has been destroyed by fire, the rebels burning all they could not control. But they are reported as completely suppressed, though with terrible losses of life and property.

Then another of those appalling accidents among the colliers occurred at the coal mines on the 27th at Pittston, Pa., by which eighteen lives were lost, and nearly twenty more greatly endangered.

To further add to the list of calamities a most diabolical series of murders were perpetrated last Saturday in Richfield, Summit county. A reckless fiend in human shape by the name of Hunter, on account of a love affair, where he was disappointed, deliberately shot the father, mother and brother of the girl, whose hand he sought. The name of this unfortunate family is Gargett. The girl escaped the murder's bloody hand, or she too would have been among the victims. Soon after the tragedy the mother died; the life of the father is despaired of, but the young man was not fatally injured With some difficulty the murderer was taken, and his life had to be protected by the officers. He is now in Akron jail.

TO THE AFFLICTED!

NO CURE, NO PAY.

By Dr. T. H. Purdy,

THE CELEBRATED INDIAN PHYSICIAN.

Dr. Purdy has practised for 35 years, and is a regular graduate of 2 different schools, and has been with three different tribes of Indians; each tribe from 5 to 8 years- Wyandots, in Ohio, Mohawks and Crows west of the Rocky Mountains, and from his experience in the practice of medicine, and his thorough knowledge of all the vegetable preparations, feels confident that he can cure all classes of chronic diseases that he meets with. Thousands of patients, that other doctors have given up, have been cured by Dr. Purdy, and are now enjoying good health, the blessings of God designed they should enjoy. I have a large and successful practice—am well experienced in the profession, therefore understand the properties and uses of vegetable compounds, and as an Indian Doctor, I am happy to say, that all who come under my system of treatment think it wonderful how I can eradicate the worst forms of chronic diseases. The case is simply this: I want but to look at the patient before me to tell him or her what ails them, and all their symptoms and the cause of their ailment. That being done, all reasonable minds will say the worst obstacle is surmounted, simply because it is not guess work, but a perfect knowledge. The doctor prepares all his own medicines, adapted for each and every disease, which have never failed to give the best satisfaction. I give no minerals whatever, but a substitute far superior.

In the treatment of diseases, I reject the use of all poisonous drugs. I use nothing but vegetable medicine, and that is free from poison. Instead of reducing the system, I invigorate the constitution, remove the cause of disease and thus get rid of the disease; even the most delicate constitution, although afflicted with the most inveterate diseases, will not be impaired by my treatment, Thousands are annually sent to their graves, not for want of medicine, but for the want of the proper kind. During the time you are under treatment, I desire to hear from you frequently regarding the effect of the medicine and the progress of your case. Write in a plain, legible hand your post office address, so that a letter may reach you. All persons writing to me, wishing answers, will enclose the return postage stamp. All letters must be directed to Dr. T. H. Purdy, Fort Wayne, Indiana.

My terms are moderate and safe to patients, for if they do not get well, they have nothing to pay. I wait three months after they have taken the last dose of medicine, and are well. Now recollect this, you are not to pay me a cent until three months after you have taken the last dose of medicine, and call yourself well, as I dont want something for nothing. I furnish no medicine to and one unless by special request. I simply take your case under advisement, and when you get well you are to pay my fee, which is from one to fifty dollars. I carry a full supply of medicine with me, and if you wish, you can get the medicine from me, but you must pay me for it at the time you get it, or get it at some other place. The Dr. treats all chronic diseases, such as the eye, ear, and all classes of male or female diseases of a private character, with the utmost success, and strictly confidential in all cases.

My patients can continue their usual vocation of life, as I do not make them sick but well. I do not tear down the system, but invigorate the constitution. Particular attention given to al kinds of female complaints; and I tell you I can cure them.

I make it a speciality to treat chronic diseases only. A mong them are, consumption. bronchitis, asthma, or phthisic. throat diseases, scrofula, rheumatism, loss of voice, white swelling and all other chronic diseases that I meet with.

Persons wishing to consult me in regard to the nature of those complaints, may accept the assurance tint that they will not have to pay for advice; I shall at all times be most happy to administer relief to the afflicted. for I feel that it is my mission on earth. I shall not imitate others, by publishing forged certificates, though I have over three thousand genuine ones wi h me, which any one can have the privilege to read who may wish to do so. I am willing to rest my reputation on the opinion of thousands of living witnesses.

Dr Purdy will give one of the many letters.

CHARLESTOWN, CLARK CO., IND., }
February 6, 1870. }

DR. PURDY—Dear sir: in your last letter to me you wished me to give you a statement of my case. which I will endeavor to do truthfully. I entered the United States army on the 17th day of April 1861, and served in various departments until the 9th of September, 1864. I was wounded and taken prisoner at the battle of Chickamauga. I then weighed 195 pounds. I was sent to Cahawba prison, and remained there until the 7th of April, 1866, exposed to every privation that it was possible to expose men to. In the fall of '64 I caught a violent cold, which settled on my lungs and terminated in tuberculous consumption. Five days after I was released I was weighed by the hospital steward of Elm street hospital, at Meridian, Miss., and I weighed but 92 pounds I lay in this helpless condition 98 days. not able to articulate a sentence, even in a whisper, as the vocal organs were completely paralyzed. More than twenty different physicians paid me a visit as I was a medical man they did everything in their power for me, but all agreed I must die. At this time they watched me constantly to see the last spark of life die out; but thanks to God and Dr. Purdy, a classmate of mine, who heard of my condition, came to see me, He begged of Dr. Martain, the surgeon in charge, for the privilege of putting me under a course of Physio-medical treatment. At last the surgeon said, "You may rob him of a few hours, anyhow; he can't live but 24 hours longer." In less than one hours after I took the first dose of medicine, I eliminated, or threw from my lungs more than a pint of yellow, effervescive corruption, and in less than two hours, I could talk as well as ever, and now my weight is 146 pounds, and I enjoy all the blessings of perfect health.

SHELDENBURGER'S

EUROPEAN MENAGERIE

AND

GREAT GRECIAN CIRCUS.

The Grandest Concentration of Novelties That has ever been presented to the American Public.

FIRST TOUR IN AMERICA

Of this Mammoth Aggregation. Mr. Eugene Sheldenburger for the past 12 years, proprietor of the European Menagerie and Circus, has confined his Traveling Tours exclusively to the Old World, where his reputation as a caterer to the amusement loving populace, stands simply unapp roachable. This being his initial visit to the New World he can only assure the American Public that his Exhibition is

First Class in all its Departments,

Containing as it does all the great features of a

Mammoth Menagerie & Paintless Circus.

Foremost among the many novelties of the **Grand Zoological Collection** is the **Only Full Grown Living**

RHINOCEROS!

Or UNICORN OF HOLY WRIT,

That has ever been captured. This Leviathan who

WEIGHS OVER EIGHT THOUSAND POUNDS,

Was captured in the Jungles of India by Mr. George Scowell, the Agent of Mr. Sheldenburger, and cost by the time he landed in New York on March 1st of the present year, **Over $21,000 in Gold.** The greatest difficulty occurred in getting a Den built strong enough to hold the monster, and yet so arranged as to be readily transported through the country. The cage that contains him is a magnificent specimen of mechanism, and was built by Castor, Carriage and Wagon Builder, of Philadelphia. It requires to transport this Huge Beast and Den

EIGHT MASSIVE HORSES.

It may be well to add that during the past two years several of the smaller species of Rhinoceros have landed and have been exhibited in both Europe and America, but no comparison can be drawn between them and the one here advertised, as this is a

REAL BLACK RHINOCEROS!

The largest of the different species mentioned in Natural History, and this one weighs 2,000 pounds more than the largest of which Goodrich makes any Animal has been used Biblical history by the Inspiration in his Illustrated Natural History. This ed writers to show the power of the Almighty. The Book of Job says of the Unicorn,

"That on Earth there is not his Like."

An able and gentlemanly attendant will be found constantly in front of the Den of the Monster, ready at all times to give a lucid and correct version of his capture, and to impart any information that may be required. Next in importance to this Great Marvel is the

ELEPHANT, "SELIM."

JURUBEBA

WHAT IS IT?

It is a sure and perfect remedy for all diseases of the liver and spleen, enlargement or obstruction of intestines, urinary, uterine or abdominal organs, poverty or a want of blood, intermittent or remittent fevers, inflamation of the liver, dropsy, sluggish circulation of the blood, abscesses, tumors, jaundice, scrofula, dyspepsia, ague and fevers or their concomittants.

Dr. Wells having become aware of the extraordinary medicinal properties of the south American plant, called

JURUBEBA

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even excell the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful plant. He has spent much time in experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr Wells' Extract of Jurubeba.

And he confidently recommends it to every family as a household remedy which should be freely taken as a blood purifier in all derangements of the system and to animate and fortify all weak and lymphatic temperaments. MILLIONS Bear Testimony to the Wonderful Curative Effects of DR. WALKER'S CALIFORNIA

J. WALKER Proprietor. R. H. McDONALD & Co., Druggists and Gen. Ag'ts, San Francisco, Cal., and 32 and 34 Commerce St, N.Y.

Vinegar Bitters are not a vile **Fancy Drink.** Made of **Poor Rum Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout; Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erisipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

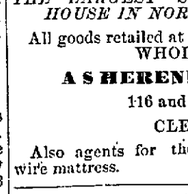
Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.



The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this. *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter,

Hoofland's GermanBitters,

Hoofland's German Tonic,

Hoofland's Podophyllin Pill

Hoofland's Greek Oil.

Hoofland's German Bitters,

A Bitters without Alcohol or Spirits of any kind.

Is different from all others. It is composed of the pure juices or vital principle of roots herbs, and barks, (or as medicinally termed extracts), the worthless or inert portions of the ingredients not being used. Therefore, in one bottle of this bitters there is contained as much medicinal virtue as will be found in several gallons of ordinary mixtures. The roots &c., used in this bitters are grown in Germany, their vital principles extracted in that country by a scientific chemist and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use, they cannot make drunkards, and cannot under any circumstances, have any but a beneficial effect.

Hoofland's German Tonic

Was compounded for those not inclined to extreme bitters, and is intended for use in cases where some alcoholic stimulant is required in connection with the tonic properties of the bitters. Each bottle of the tonic contains one bottle of the bitters, combined with pure Santa Cruz Rum, and flavored in such a manner that the extreme bitterness of the bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the bitters. The price of the tonic is $1,50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain only the best ingredients, and they who expect to obtain a cheap compound will most certainly be cheated.

They are the greatest known Remedies

For Liver Complaint, Dyspepsia, Nervous Debility, Jaundice, Disease of the Kidneys, Eruptions of the Skin, and all diseases arising from a disordered Liver, or Stomach, or Impurity of the Blood.

Read the following symptoms:

Constipation, flatulence, inward piles, fullness of blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness or weight in the stomach, sour eructations, sinking or flutteringat the pit of the stomach, swiming of the head, hurried or difficult breathing, fluttering at the heart choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, dull pain in the head; deficiency of perspiration, yellowness of the skin, and eyes, pain in the side, back, chest, limbs, &c., sudden flushes of heat, burning in the flesh, constant imaginings of evil, and great depression of spirits. All these indicate disease of the liver or digestive organs combined with impure blood.

The use of the bitters or tonic will soon cause the above symptoms to disappear, and the patient will become well and healthy.

Dr. Hoofland's Greek Oil,

LIGHTNING CURE FOR ALL KINDS OF PAINS AND ACHES.

APPLIED INTERNALLY.—It will cure kidney complaints, backaches, sick headaches, colic, dysentery, diarrhœa, cholera infantum, cholera morbus, cramps, and pains in the stomach, fever and ague, colds, coughs Asthma, &c.

APPLIED EXTERNALLY.—It will cure all kinds of pains and aches, such as rheumatism, neuralgia, toothache, chilblains, sprains bruises, frost bites, headaches, pains in the back and loins, pains in the joints or limbs, stings of insects, ringworms, &c.

Dr Hoofland's Podophyllin

Substitute for Mercury Pill.

TWO PILLS A DOSE.

The most powerful, yet inmocent vegetable cathartic known.

It is not necessary to take a handful of these pills to produce the desired effect; two of them act quickly and powerfully, cleansing the liver, stomach and bowels of all impurities. The principal ingredient is Podophyllin, or the alcoholic extract of mandrake which is by many times more powerful, acting, and searching, than the mandrake itself. Its peculiar action is upon the liver, cleaning it speedily from all obstructions, with all the power of mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They never fail,

In cases of liver complaint, dyspepsia, and extreme costiveness, Dr. Hoofland's German Bitterrs or tonic should be used in connection with the pills. The tonic effects of the bitters or tonic builds up the system. The bitters or tonic purifies the blood, strengthens the nerves, regulates the liver and gives strength, energy, and vigor.

Keep your bowels active with the pills, and tone up the system with bitters or tonic, and no disease can retain its hold, or ever assail you.

These medicines are sold by all druggists and dealers in medicines everywhere.

Recollect that it is Dr. Hoofland's German Remedies, that are so universally used and highly recommended; and do not allow the druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These remedies will be sent by express to any locality, upon application to the principal office, at the German Medical Store, 631 Arch Street, Pa.

The German brass band, which has long been in existence, and has acquired considerable profeciency in producing good music, continues to favor our citizens with their skill. They have calls for their services, both here and elsewhere, which indicates that they render satisfaction.

Mr. T. H. Stansbury, the marble cutter at Fulton, we understand, is doing a thriving business in finishing and putting up memorials of the departed. He is filling a number of large orders, and has quite as much as he can do to execute the work required by his customers. Mr. S. is noted for his skill as a marble worker.

Our friend Mr. I. S. Crooks, who has for some time been in the news depot business, has a name, but for some reason we heretofore neglected to give him a habitation. He is in the Opera building, and is gradually adding to his stock of dalies, wecklies, monthlies, &c., for why, because his customers are increasing.

Last Wednesday a brick building between the furnaces was discovered to be on fire. The alarm was given, the firemen were there, or on the way, but fortunately the flames were promptly suppressed without serious damage.

We have been requested to state that books of a spiritual character can be had at Ryder's news depot—probably in the way of rent, as is customary with other books. Not a few are becoming interested in this sort of progressive literature.

Bro. Rukenbrod of the Salem Republican, who has been active in endeavoring to promote the interests of the publishers in this district, by his plausible recommendations, has designated Alliance as the place, and Monday the 26th of June as the time for all interested to come together for the purpose of holding a business meeting. Brethren, let us all be on hand.

Common pleas court begins at Canton on Monday next, the 5th inst. There may be plenty of small jobs on hand, but we are not aware of anything of great public interest that is to come up for settlement.

Another chapter concerning those unaccountable doings at Wooster appears on first page of to-day's paper. Although the phenomena are numerous and striking; and every effort has been made to expose the *tricks*, and find out who of the humans is guilty, thus far all seems to be mystery. It is said that some of the clergy who allege that it is the work of the devil (a most powerful old fellow) have been called on for their aid in the case—but none of them have ventured on the work of exorcism—in other words, to "lay the devil." There is no use in speculating concerning these curious works, but we must await the course of events—time will tell. When the mysteries are fully developed and explained some of us will be wiser than we now are if we heed the lessons they present. If the devil is bossing the job we hope he may be found out, fully exposed, punished or killed off, if such a character can suffer death, for he has long enough been a terrible plague.

Mr. Q. W. Reeves, proprietor of the Massillon Marble Works, has just completed several large and beautifully finished monuments, made of Italian marble. They are objects of admiration to all who have seen them, and especially is it so of the largest one in memory of the late J. Miller, of Fulton. This is a superbly finished shaft about eleven feet in height, and is worth some $700. Mr. R is filling home and distant orders, which are presented, and is thus proving that his work renders satisfaction wherever introduced. By calling at the Marble Works on the corner of Mill and Tremont streets, our citizens can see these productions of the handiwork of this establishment for a short time.

Mr. H. O. C. Kortheuer, of New York City, having been frequently asked to give instruction on the piano to different parties desirous of taking lessons of him, during his stay at Massillon, begs to announce that he will take a limited number of pupils, for a term of sixteen lessons, to commence the first week in July. For particulars apply to Rev. H. Kortheuer, Massillon, O. 2w

Wool commenced coming to town last week in small quantities, and ranged from 45 to 50 cents a pound. This will probably be about the range of prices.

The hot weather has come upon us, and and is oppressively so, having raised the mercury to 92 last Saturday. Up to Monday we had the promise of several showers, but it ended in promises, unless the homeopathic doses with which we were favored may be counted showers. East and west of us has been visited with fine rains, and at this writing there are indications that we shall soon be similarly favored—for which blessing both the righteous and unrighteous are earnestly praying.

More than 500,000 people bear testimony to the wonderful effects of Dr. Pierce's Alt. Ext. or Golden Medical Discovery. For palpitation or irregular action of the heart, all severe acute or lingering coughs, and for liver complaint or biliousness is unequaled. Sold by all druggists.

The friends of temperance in Mahoning county are wide awake and are successfully taking the preliminary steps to infuse an interest among all the people. A large and enthusiastic convention was held at Canfield on the 17th inst. at which time a county organization was perfected by adopting a constitution and the election of officers. Many of the leading men of Mahoning, including those of the various professions, and quite a number of the ministery are zealously laboring in this work, and it looks as if they mean business. The organization is a public one, of which all who sign the pledge are members. Some of them seem to think that secret organizations are not sufficiently effective. We have no quarrel to wage with such—they are entitled to their views. There is room for all to work, and quite as much as all will wish to undertake. Then some favored political nominations, but others, perhaps of strong party predilections, betrayed great fear at such a course, so no nominations were made. But that time is coming, and politicians may as well reconcile themselves to it.

On Friday of the same week the temperance people of Youngstown formed an open organization, and over three hundred signed the pledge. There was great earnestness evinced, and all classes appeared to be wide awake. Very appropriately the preachers took a prominent part in the work. That state of things is very much needed elsewhere. If the forty thousand preachers in this country were all to labor earnestly in favor of the temperance cause nothing could stand before them—even the timid politicians would put on boldness and go for political as well as moral suasion. We hope that these new organizations will set the ball in motion in our neighboring county, so that it may roll over into Stark and wake up our preachers and all the rest to the importance and necessity of vigorous, persistent action. The last Youngstown Register contains full proceedings of these movements.

Wheat and rye are fully out in head, which betokens an early harvest. Gentlemen from Illinois inform us that grain has been cut in the southern part of the state.

The friends of temperance of Lawrence and vicinity have appointed a meeting to be held on next Saturday, south of that village, to which all are cordially invited. A number of speakers are announced who are to address such as may come together on behalf of temperance and its claims to general attention. Our friends in that vicinity are earnest in their endeavors to promote the interests of the cause they have so much at heart. It will be a satisfaction to meet with them, for they will have a number of good speakers who will present the claims of the reform both earnestly and ably. And the speaking will be interspersed with appropriate vocal music. We hope and anticipate a full attendance.

Yesterday was decoration day, and a large number of people were in town. At the hour appointed a procession was formed composed of members of the G. A. R. post & other soldiers, several benevolent associations which added much to the appearance, fire companies, Good Templars, and many hundreds of our citizens. Flags, banners and bands were interspersed along the line of march to the cemetery. Rain began to fall before reaching the cemetery, and continued much of the time while the people were there. The rite of strewing flowers, however, was carried out. Prof. Atwater, it was expected, would speak on subjects appropriate to the occasion, but in consequence of the rain his remarks were very brief. The procession was re-formed and marched back to the city quietly and in good order, where it disbanded. The Good Templars had provided ice cream and other delicacies at the hall, where a large number of the order and numerous friends had a pleasant time. In the evening the members of Hart Post presented a new drama in the Opera House.

Placing it in the best possible light, it certainly looked very much out of good taste for the fire companies to leave the procession when they found out that a few colored men were ahead of them at least it is so characterized by all whom we have heard speak of it, and not a few look upon the act as utterly contemptible.

The German Benevolent Association, of this place, enjoyed a pleasant picnic on Monday at the Mineral Springs. A considerable number were in attendance, and no doubt they had a good time, with plenty of music and social entertainments.

MARRIED—On the 25th inst, at the residence of the bride's father, near Massillon, by Rev. J. N. Kieffer, Mr. SAMUEL BUSHMAN and Miss CASSANDRA FORTENEY.

DIED—At his residence, a few miles south of this city, on Monday, the 29th inst., Judge David Welker, in the 84th year of his age.

Judge Welker was a native of Cumberland county, Pa. At the age of twenty he came to Ohio and settled in Columbiana county, our own county of Stark not being then organized. When the call for reinforcements for the western army in the war of 1812 was made, he was among the first to volunteer, and served under Gen. Harrison until honorably discharged.

Within the recollection of the writer he took a flat boat load of flour down the Tuscarawas, Muskingum, Ohio and Mississippi rivers, to New Orleans. He was one of the first to open a hotel by the way side, between Canton and Massillon, more than fifty years ago, after which he purchased a farm where he lived for many years. In the days of associate judges Mr. Welker was made an associate, and served as such until the new constitution legislated him out of office. He leaves eight out eleven children, having many years since buried his wife.

Judge Welker politicaly was an ardent democrat, having favored General Jackson and the democratic succession since 1823, and always enjoyed the confidence of his party.

'Hello, there,' said a farmer to an Irishman, busily engaged at one of his cherry trees, 'by what right do you take these cherries?' 'In faith, my friend', said he, 'by my right hand, sure.'

CHICAGO, ILL., MAY 17, 1871.

The general assembly of the Presbyterian Church of America still in session in this city, has been characterized by the most fraternal harmony.

This is the first annual meeting since the formal reunion of the old and new school branches.

What evidence have we that this organization has been a cordial one? Look for it in what follows:

When the two assemblies met last year in the city of Pittsburgh, & completed this reunion, they voted to raise during the year a memorial thank offering of five millions of dollars; in this way the reunited church was placed on trial. When the memorial report was announced as the next order of the day, a great crowd assembled to hear it read, and hundreds trembled with apprehension. Well, the five millions have been raised—nay, seven millions and six hundred thousand have been raised, and the official report is still incomplete. When all the detailed reports are received the full report will swell the fund to four millions more than the stipulated offering. W.

A living monster Rhinoceros Coming to Massillon on June 8th.—Sheldenbergers European menagerie and Circus will exhibit at Massillon, on Thursday, June 8th. This exhibition is one of Colossal proportions, employing over 300 men and horses, and including a host of attractions contained in no other show. The circus, we are informed, is most excellent, and embraces some of the brightest stars among its roll of performers in the equestrian firmament. One feature being that all the riders execute their daring feats upon the backs of swift running, bare backed horses, entirely discarding the use of the pad saddle. The gymnastic portion of the exhibition is said to be the most excellent, especially the performance of the human serpent, Prince Sadi D'Jalmi, whose extraordinary achievements are impossible to describe. The menagerie embraces a long list of rare and interesting animals among which is the only full grown black rhinoceros ever exhibited. This monstrous and rare animal weighs over 8000 pounds, is carried in a den of colossal proportions while eight horses are required to transport him about. He is certainly the greatest animal curiosity that has ever visited our city, and will attract universal attention. The rhinoceros has attained great notoriety from the fact that it is claimed by many Bibical scholars that he is the animal mentioned in the book of Job, to exemplify in his prodigious form the omnipotence of God. The street display on the morning of the exhibition will be a brilliant affair, and we advise all to see it. So be on hand early, and keep the date in mind, Thursday, June 8th.

COUNCIL PROCEEDINGS.

Wednesday Ev'g, May 24, 1871.

Regular Session—G. L. Russell presiding. Roll Call—Members present, Messrs. Russell, Mong, Ruchti, Kirkland, Bollinger, and Oberlin.

Minutes read and approved.

An ordinance fixing the compensation of the city marshal was then taken up and passed.

The street and alley committee reported as follows in relation to McLain's addition to Massillon:

Your committee on streets and alleys to whom was referred the matter of the acceptance of McLain's addition to the city of Massillon, have seen and investigated said addition, and would respectfully report that said addition should be accepted by the city council of the city of Massillon. Provided that such streets and alleys as are now in passable of said addition be put in passable condition by the petitioner.

F. RUCHTI,
D. KIRKLAND,
GEO. BOLLINGER, } Comm.

Mr. Mong moved that the report of the street and alley committee be accepted and adopted. Motion prevailed.

Street commissioner Hewes submitted his regular report for work done on streets and alleys for the week ending May 20th, to be $73,20.

A petition from M. Richheimer, G. Snyder G. Young, Peter Stilgenbauer, M. Young, Schwarm & Henrich, P. G. Albright, and F. Lœffler, was presented asking the privilege to lay down a sewer on Mill st, from the ten foot alley just south of Richheimer's block to Sippo creek where the same crosses Mill st, for the more perfect drainage of cellars and vaults. They also ask the privilege of laying a sewer in the middle of the alley between Saal & Hershey's meat market and Peter Stilgenbauer's bakery, the said sewer to connect with the main sewer on Mill st.

Mr. Kirkland moved that the prayer of the petitioners be granted, providing the petitioners be responsible for all claims for damages. Motion prevailed.

Mr. Ruchti moved that Jonathan Crooks be reappointed, and Dr. A. W. Ridenour be appointed as members of the board of health for the term of three years, and that the city clerk is hereby directed to notify the parties of their appointment.

R. H. Folger attorney for Wm. Pogers, presented a claim of Wm. Rogers against the city of Massillon for balance claimed to be due said Rogers as street commissioner; also, for services as assistant police, &c. On motion of Mr. Bollinger, the president appointed the following committee to investigate the claims of Wm. Rogers, to wit—Messrs. Bollinger, Ruchti, and Oberlin.

Mr. Mong moved that a committee be appointed to investigate the claims for damages of John Riber, and others, on Cherry and East streets. Motion prevailed.

The president appointed the street and alley committee with C. N. Oberlin as chairman, to investigate said claims.

Hart Post, G. A. R. presented an invitation to the city council to participate in the ceremonies attending the decoration of the soldiers graves on the 30th of May. On motion of Mr. Ruchti the invitation was accepted,

There being no further business the council adjourned.

DR. WHITTLESEY, ERQ.

Dear Sir:—Having stated it verbally to you, I have no hesitation in writing the fact, although not disposed in favor or to recommend patent medicines in general.

I do this more readily in regard to the sick headache cure prepared by Dr. Whittlesey, of Norwalk, Ohio. I have analyzed and tried it, and I recommend it as one of the best dyspepsia cures ever invented, and I feel that in recommending Whittlesey's cure I am doing at act of justice to the compounder of it, and an act of benevolence to those afflicted with dyspepsia and sick headache for which it is recommended.

Yours Respectfully,
FRANCIS RAAS, M. D.

Poisonous Medicines.

The theory that the virus of diseases can be safely counteracted by doses of poison is false and dangerous. Within the last twenty-five years not less than a score of virulent poisons have been added to the repository of the medical profession. They are given in small doses, otherwise they would destroy life immediately; but even, in minute quantities, they produce, ultimately, very disastrous effects. It is unwise and unphilosophical to employ as remedies, powerful and insidious drugs, which in subjugating one disease, sow the seeds of another still more unmanageable. None of these terrible medicaments operates with as much directness and certainty upon the causes of disease as Hostetters' Stomach Bitters, a tonic and corrective, without a single deleterious ingredient in its composition. Arsenic and quinine are given for intermittents; bromide of potassium for nervous disorders; strychnine and prussic acid for general debility; mercury in various forms for liver complaint; preparations of chloroform and opium for sleeplessness, and yet these deadly drugs do not compare, as specifics for the diseases above enumerated, with that vegetable invigorant and alterative, while they are all so pernicious that is astonishing any physician should take the responsibility of prescribing them. Let invalids for their own sakes, try the Bitters before they resort to the poisons. The relief they will experience from a course of the harmless specific, will render a recourse to the unsafe preparations referred to, quite unnecessary.

Henry T. Helmbold's

COMPOUND FLUID

Extract Catawba

GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable containing no Mercury, Minerals or Deleterious drugs.

H

These pills are themost elightfully pleasant purgative, superseding castor oil, salts, magnetia, etc., There is nothing more acceptable to the stomach. They give tone and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawaba Grape Pills are not sugar coated, from the fact that sugar coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawaba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar coated. Price 50 cents per box.

E

Henry T. Helmbold's

Highly Concentrated Compound

Fluid Extract Sarsaparilla

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers sore eyes sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, lash, dyspepsia, and all diseases that have been established in the system for years.

L

Being prepared expressly for the above complaints, its blood purifying propensities are greater than any other preparation of Sarsaparilla. It gives the complection a clear and healthy color, and restores the patient to a state of health and purity. And is the only reliable remedy for the cure of pains and swellings of the bones, ulcerations of the throat and legs, blotches, pimples, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price $1,50 per bottle.

M

Henry T. Helmbold's

CONCENTRATED

Fluid Extract Buchu,

The Great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder and inflamation of the kidneys, ulceration of the kidneys and bladder, retention of the urine, gravel, milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with loss of memory, indisposition, weak nerves, trembling, pain in the back, hot hands, dryness of the skin, and a host of other symptoms. Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty-five, or in the decline or change of life; after confinement or labor pains; bed wetting in children.

B

Helmbold's Extract Buchu is Diuretic and blood purifying, and cures diseases arising from dissipation, excess and imprudences in life, impurities of the blood, etc., supersedes copaiby in affections in which it is used, and syphilic affections—in these affections used in connection with Helmbold's rose wash.

Ladies, In many affections peculiar to ladies, the buchu is unequaled by any other remedy—as in chlorosis, irregularity, ulcerated state of the uteris, leucorrhœa or whites sterility, and for all complaints incident to the sex, whether arising from indiscretion or dissipation. It is prescribed by physicians and midwives for the enfeebled and delicate constitutions of both sexes, and all ages.

O

H. T. HELMBOLD'S EXTRACT BUCHU cures diseases arising from imprudences habits of dissipation, etc, in all their stages, at little expense, little or no change in diet, no inconvenidnce, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, so frequent in this class of diseases.

Use Helmbold's Extract Buchu for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. Price $1.50 cents per bottle.

L

HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, indurations of the cutaneous membrane, etc., dispels redness and incipient inflamation, hives, rash, moth patches, dryness of the scalp or skin, frost bites, and all purposes for which salves and ointments are used. It is an excellent Lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla, and Catawaba Grape Pills, in such diseases as recommended cannot be surpassed. Price $1 per bottle.

D

Full and explicit directions accompanying the medicines. Evidence of the most responsible and reliable character furnished on application, with hundreds of thousands of living witnesses, and upward of 50,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent physicians, clergymen, statesmen, etc. The proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as standard preparations, and do not need to be propped up by certificates.

NEWSPAPERARCHIVE®

In a pool across the road, in the county of Tipperary, Ireland, is stuck up a pole, having affixed to it a board, with this inscription: 'Take notice that when the water is over this board, the road is impassable.'

An exchange says it is not good taste for a gentleman to stay after ten o'clock when vititing a young lady. We never noticed any difference in the taste after ten o'clock.—Pshaw! it's good any time.

We love much more warmly by cherishing the intention of giving pleasure, than an hour afterwards when we have given it.

Why does the gorilla prefer the tropics to any other part of the world? Because it is the only place he can call his zone!

When an editor of a woman's rights paper speaks of the most 'delicious, delightful, delectable, entrancing and distracting of innocent indulgences,' he means a kiss.

Let no man be too proud to work. Let no man be afraid of a hard fist or a sunburnt countenance. Let him be ashamed only of ignorance and sloth. Let no man be ashamed of poverty.

Girls, never run away from your parents till you are sure the young man you elope with don't intend to run away from you. This advice is worth a year's subscription, but we give it gratis.

The farmers creed, small farms and thorough cultivation; large crops which leave the land better than they find it; going to the bottomn of things, and therefore deep ploughing, The best fertilizer of the soil is the spirit of industry, enterprise and intelligence.

The effeminate man is a week poultice. He is a cross between a root beer and a ginger pop with the cork left out. He is a kitten in pantaletts—a sick monkey with a blonde moustache—a paper kite in a dead calm. He is as harmless as a cents worth of spruce gum, and as useless as a shirt button without a hole. He is as lazy as a bread pill, and has no more hope than a last year's grasshopper. He goes through life on tiptoes, and dies like cologne water spilt on the ground.

The other day one of the High Joints said to a pretty girl, 'Where are all your handsome men? The ladies are all very well, but pon my soul, you know I haven't seen a handsome man since I've been here.' 'Ah,' said the young lady, sweetly, 'but you have handsome men in England, I presume? 'Oh, yes, of course, we have plenty of them.' 'Then why,' she asked did not the Queen send one here?'

President Lincoln used to tell this story on himself: He was riding one day on the top of a stage coach in Illinois, when the driver asked him to treat.

'I never use liquor,' was Mr. Lincoln's reply, 'and I cannot induce others to do so.'

'Don't you chew, neither?' said the driver.

'No, sir.'

'Nor smoke?'

'No, sir, I never use tobacco in any form.'

'Well,' remarked the disgusted Jehu, 'I han't got much opinion of those fellows with no small vices; they usually make it up in big ones.'

A country chap who recently visited the city for the first time, gives his views of the ladies in this way:

Somewhere in every circumference of silk and velvit that wriggles along there's allars a woman, I s'pose; but how much of the boller is filled in with meat, and how much is gammon, the spectator dunno. A feller marries a wife, and finds, when it comes to the pint, that he has nothing in his arms but a regular anatomy. Ef men is gay deseevers, wot's to be said of the female that dresses for a hundred and forty weight, but hasn't reely as much fat on her as would grease a griddle? and all the aparient plumpness consisted of cotton and whalebone.

GOOD SENSE.

The trouble among American youth is the lack of application and thoroughness in what they undertake. Anything that cannot be learned by a superficial study is given the go by for something less tedious and irksome. Study and hard labor are looked at from a wrong standpoint; and as a consequence the clerkship ranks are full of unemployed and half young men, and the professions are overflowing with mediocrity. while good mechanics find plenty of work at living prices. The evil spoken of is seriously felt. And many who work at a trade do it in so loose and careless a manner they often are not competent to do the work they promised to do.

The New York Tribune notes the cry of hard times, and truthfully attributes the cause, primarily, to the fact that too large a share of our people are trying to live by something else than productive industry. Other influences contribute, it says, but this is far more potent than the whole of them. We are fast becoming a nation of schemers to live without work. Our boys are not learning trades, our farmers' sons are crowding into cities, looking for clerkships and petty offices; hardly one American girl in each hundred will do housework for wages, however urgent her need, so we are sending to Europe for workmen, buying her artisans millions worth of products that we ought to make for ourselves. There can be no doubt that our boys and girls must be taught to love labor by qualifying themselves to do it efficiently, if we would better matters in the future at all.

Dr. J. LONG.

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office east of the Park, second door of Mr. Falke's new building.
All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,

Just Published in a Sealed Envelope, Price six cents. A Lecture on the Nature, Treatment and Radical Cure of

of Spermatorrhœa, or Seminal weakness, involuntary seminal losses, impotency, mental and physical incapacity, impediments to marriage, etc.; also, consumption, epilepsy, and fits, induced by self indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

DR. WHITTIER

Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhea or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness. indigestion. consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions. and finally so prostrating the sexual system as to render marriage unsafe or tory, and therefore imprudent, are per a nently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and, treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

DR. PIERCE'S
ALT. EXT. OR, GOLDEN MEDICAL DISCOVERY

The originator of this wond combined in claims to have discovered and st sovereign harmony more of Nature's mo ever before medical properties than was e evidence combined in one medicine. Th variety of this fact is found in the greatt has been most obstinate biseases which i found to conquer. In the cure of Bronchitis and the early stages of Consumption, it has astonished the medical faculty, and hundreds of the best physicians pronounce it one greatest medical discoveries of the age. By its great and thorough blood purifying properties, it cures all Humors from the worst Scrofula to a common Pimple or Eruption. Mineral Poisons, Syphilitic and Venerial Diseases, and their effects are eradicated and vigorous health and a sound constitution established. Salt Rheum, Scald Head, Fever Sores, in short, all the numerous diseases caused by bad blood, are conquered this powerful, purifying, and invigoraing medicine, For Liver Complaint, Billious Disorders and Habitual Constipation, it has produced hundreds of perfect and permanent cures where other medicines have failed.

The proprietor offers $1,000 reward for a medicine that will equal it in the cure of all the diseases for which it is recommended. Beware of counterfeits and worthless imitations. See that my private Government Stamp, which is a positive guarantee of Genuineness, is upon the outside wrapper. This medicine is sold by Druggists at $1.00 per bottle. Prepared by R. V. PIERCE, M.
